COMPANY OVERVIEW – ABOUT US

3L Development is operational since 1998 and registered as a NPO in 2001. In 2015, the name was changed from Thabiso NGO to 3L Development as the organisation believes everyone should Live Life in Light.

A paradigm shift was made, to deter focus from the broad community developmental approach and completely focus on three specific areas, namely;

- Socio-Economic Empowerment – 3L Development strives to uplift and empower underprivileged communities.
- Early Learning – The fundamental key to future growth is education.
- Skills Development – The organisation assists in affirming a place and position as an SA citizen.

The organisation manages a well-developed Early Learning program. Two community service centres are established in Barkly West and Warrenton, Northern Cape. 3L Development was appointed as the implementation agent for the governmental project; Community Work Program (CWP), which provides the participants with freedom from poverty.

For the past 18 years, 3L Development has specialized in; Home Based Care, Governance & Transformation, Socio-economic programs, Water related projects, Project Management and Training related projects.

3L Development is mainly operational in the Northern Cape Province and the Free State Province. 3L Development has a 55% reach in the Northern Cape alone. 3L Development believes in finding a sustainable solution to poverty alleviation, therefore, an exit strategy is in place for each individual participating in our projects.

3L Development is a ground based organisation who ensure any project is community owned from the very start of the project. All resources and materials remain in the possession of the community. Signed agreements and cooperatives are put in place to ensure a project is community owned. Once a project is completed, the community is fully equipped, with knowledge and resources, to ensure the sustainability of the project.

Our Vision & Mission

➔ **VISION:** *Enlighten lives for a better tomorrow*

➔ **MISSION:** *3L Development strives to empower communities in order for every individual to reach their full potential to live dignified and successful lives. Through accredited training, community development programs, project management and administrative support.*

**3L DEVELOPMENT HAS
ACCESS TO 124 WARDS
IN THE NORTHERN CAPE
PROVINCE**

CURRENT PROJECT

COMMUNITY SERVICE CENTRE (BARKLY WEST AND WARRENTON)

The two community service centre provides information and services to communities, through the development communication approach, in an integrated manner. These centres provide a hub of activities and a variety of services such as feeding schemes, homework assistance and awareness campaigns.

EARLY LEARNING PROGRAM

3L Development provides non-centre based provision of early learning services in rural areas in the Northern Cape, where no early learning services are available. Young mothers / caregivers receive training to be edu-carers and playgroups are established in these rural villages. A well-designed day program, compiled by experts in the ECD field within the organization, is used in these playgroups. The day program is aligned according to the National Curriculum Framework (NCF) to ensure school ready learners.

COMMUNITY DEVELOPMENT INFORMATION PROGRAM

3L Development has the vision to ensure stakeholders understand the needs of the community. By understanding this, the quantitative and qualitative information and the location (per household) is defined. The methodology used is the Map-Info Professional GIS program. This programme was designed to accommodate and develop all information pertaining to a questionnaire / survey. This information is linked with the GPS instrument. Primary data is obtained from each household by completing a questionnaire and is captured on mass format for reporting and map generation for the community's current status and the social economic impact.

PROJECT MANAGEMENT

The organization has managed various projects in the past. Because of these projects, the organization is in the fortunate position to be appointed as a National implementing Agent managing the Community Works Programme (CWP) in the Northern Cape on behalf on Department of Cooperate Governance (DCoG) National.

- 3L Development is appointed by the Department of Corporate Governance to manage the Community Works Program (CWP).
- Since 2011, 3L Development had the task of managing 11 000 participants.
- Managing useful work – this has been identified by the community through community participant tools.
- Financial Management: procurement of tools and training for the projects.
- 3L Development is responsible for the administration of the project attendance registers, Management Information System (MIS), Health and Safety and Asset Management.
- Implementation of stakeholder engagement in local, provincial and national government and private sector involvement to create and establish partnerships.
